Operations Leader / Superintendent — Multi-Site Operations · Budget & Workforce Management

PROFESSIONAL SUMMARY

Operations leader with 20+ years of U.S. Air Force service directing multi-site operations, financial execution, and workforce development for a national test and evaluation enterprise. Managed 56 personnel across 3 sites and stewarded \$6.4M in budgets and contracts (\$2.4M operating budget plus \$4M in active contracts) supporting 52 test programs, while recovering 800+ labor hours annually through workflow redesign. Backfilled the Squadron Senior Enlisted Leader for 60 days, advising 107 personnel without loss of operational tempo. Active TS/SCI; BS Information Technology (4.0 GPA); PMP candidate.

CORE COMPETENCIES

| • Operations Management | • Workforce Development | • Cross-Functional Leadership |
| • Multi-Site Team Leadership | • Process Improvement | • Executive Briefings & Reporting |
| • Budget & Contract Oversight | • Strategic Planning | • Change Management |
| • Resource Allocation | • Contractor & Vendor Oversight | • Readiness & Risk Management |

PROFESSIONAL EXPERIENCE

Operations Superintendent / Resource Advisor / Special Projects Lead

605th Test & Evaluation Squadron, Hurlburt Field, FL · 2024–2026

- Managed operations and workforce for 56 personnel across 3 sites; backfilled the Squadron Senior Enlisted Leader for 60 days, advising 107 personnel on readiness and career development while maintaining full operational tempo.
- Directed financial execution across a \$2.4M operating budget and \$4M in active contracts — \$6.4M in total stewardship — supporting 21 contractors and 52 C2/ISR test programs with 100% accountability across all obligation timelines.
- Built and defended 12 unfunded requirement packages securing \$202K in mission funding; coordinated 6 lines of accounting to align resources with commander priorities and time-sensitive test requirements.
- Led 7 IT modernization initiatives — tripled SIPR-connected workstation capacity and deployed enterprise project-management software, improving tracking and reporting visibility across 85+ active projects.

Operations Superintendent / Unit Training Manager

605th Test & Evaluation Squadron, Hurlburt Field, FL · 2023–2024

- Coordinated 197 workflow tasks across group and wing staff; managed 23 formal training assignments and \$13K in training funds while transitioning squadron training to contractor support without disrupting test readiness.
- Redesigned key workflows to eliminate redundant procedures, recovering 800+ labor hours annually and redirecting capacity to mission-critical test support; tracked qualifications supporting 52 operational test requests.
- Drove 45 personnel realignments enabling a full squadron reorganization into cross-functional teams; redesigned onboarding to accelerate certification timelines for incoming test personnel.

Operational Test Program Manager — Nuclear Command, Control & Communications (NC3)

605th Test & Evaluation Squadron, Hurlburt Field, FL · 2020–2022

- Managed Congressionally mandated operational test programs within a \$4B NC3 portfolio across 32 national-level test events, integrating requirements across multiple agencies, acquisition programs, and operational stakeholders.
- Oversaw execution of a \$460M mobile NC3 system test from requirements through final evaluation, producing findings that shaped the program's acquisition pathway and fielding decisions.
- Coordinated a national asset test capturing 113 adversary threat messages, strengthening the operational basis for a \$1.2B nuclear warning mission set.
- Served as Unit Training Manager for 187 members across 4 locations; secured \$30K in additional training funds and rewrote squadron training policy, eliminating repeat deficiencies identified through test planning boards.

Flight Chief / Section Chief / Instructor-Evaluator — RC-135V/W Airborne Systems Engineer

97 IS · 338 CTS · 343d/38th RS · 55 OG, Offutt AFB, NE · 2007–2020

- Supervised flights and sections of 12–73 personnel; directed standardization/evaluation functions and modernized training trackers and qualification systems — tools adopted as institutional standards across multiple units.
- Led training and scheduling in the Air Force's largest formal training unit — coordinated 5,700+ training events and 348 missions, producing 366 qualified aircrew for 11 squadrons and 7 combatant commands.
- Directed RC-135 Mission Crew Training Simulator and virtual-reality programs with Leidos, L3Harris, and Booz Allen Hamilton (Big Safari), managing a contractor portfolio delivering C2ISR training and test environments across 52+ active programs.
- Operated and troubleshooted ISR mission systems over 13 years on RC-135V/W operations, resolving in-flight faults across RF receivers, HF/SATCOM datalinks, Linux and Windows data systems, and Cisco network equipment supporting real-time intelligence flow across 7 combatant commands.
